

London Road Models Wheels, Gears etc.

4mm Hornblocks, lost wax castings -1/8" or 2mm bearings	
Pack of Two (one axle)	£4.75
Pack of Four (Two axles)	£9.50
Pack of Four plus beam and pivot material. (Two axles)	£9.90
Pack of Four plus beam material and blanking plates. (Two axles)	£10.25
CSB/Spring adaptors for LRM hornblocks (etched)	£3.50
1/8" Alignment Jigs (set of three)	£3.50
	

Swing - Link Extended Drive Motormounts	
Available in 38:1 or 50:1 ratios, Ultrascale type. Please stipulate worm bore (1.5mm or 2.0mm) for either type.	£16.50

Etched Motor Mounts	
GB4 Single stage motor mount, accepts all current Mashima can motors (specify gear type and screw spacing) includes bearings.	£3.00

Gears 1/8th" axle (please specify 1.5mm or 2.0mm shaft size).	
38 to 1 "Ultrascale" type, with wormgear boss grub screw fixing	£6.00
50 to 1 "Ultrascale" type with wormgear boss grub screw fixing	£6.00

Bushes, Bearings, Etc.	
Top Hat Bushes or Square Bearings (per pack)	£2.50

Motors	
Mashima 1015, 1020 or 1024 (1.5 mm shaft)	£18.50
Mashima 1220 or 1224 (1.5 mm shaft)	£19.50
Mashima 1420, 1424 or 1428 (2.0 mm shaft)	£19.50

Soldering Materials and Tools	
145 Solder - (3 metres)	£3.00
Low Melt (73 degree) Solder.	£2.50
Aluminium Soldering Clamps (five)	£1.20
Gravity Powered Rivet Embossing Tool	£9.50
Resistance Soldering Units. <p>We are again able to supply the well know LRM Resistance Soldering Unit. Designed by the late Mike Grey, who was a 4mm modeller, a member of the Institution of Electrical Engineers and a senior lecturer in electrical engineering, the London Road Models RSU was first introduced in 1994. In excess of 3000 have been produced and supplied to modellers in a variety of scales from 2mm to Gauge 1, as well as professional builders and other manufacturers.</p> <p>The RSU is supplied ready assembled in a purpose built case incorporating a highly specified 100VA transformer and professional quality components. Five different voltage settings are available by selection the appropriate connections. The specially manufactured carbon probe holder and insulated handle is fitted with flexible silicon cable for easy handling. The instructions supplied describe how to provide a suitable "return lead work plate" as well as other methods providing a suitable return connection with the supplied return lead, in addition to covering the basic techniques for using an RSU.</p> <p>Owing to its weight, the RSU is available for collection at exhibitions or delivery by courier at a subsidised rate of £10.</p>	£175.00

London Road Models catalogue, 77 pages illustrated outline drawings (inc p&p)	£3.00
A simple guide to building etched kits, by Jol Wilkinson	£2.00
Motors and Motor mounts - how to choose and install the correct one (includes scale acetate overlay for accurate motor mount selection)	£2.20
